A day at Schönbrunn

1 Schönbrunn Palace

The Schloss Schönbrunn Experience children's museum in the west wing of the palace gives visitors a fascinating insight into everyday life at court for the imperial children. What is the correct way to address the imperial couple? How do you communicate in fan language? And finally the young visitors are given the chance to don regal garb and dress up as young princes and princesses.

tel. 811 13-239

2 Schönbrunn Maze, Labyrinth and Labyrinthikon

Once the exclusive preserve of the imperial family, the maze is now open to everyone. After navigating the warren of hedges you can watch other people tying themselves in knots from the observation deck. The various attractions dotted about the labyrinth give children the chance to experiment and have fun, while the oversized bird climbing frame and Archimedes screw at the Labyrinthikon make this play area a popular destination.

3 Marionette Theater Schönbrunn Palace

Artistic performances, an imperial setting, and state-of-the-art stagecraft add up to an unforgettable theatrical experience for all the family. Program highlights include Mozart's Magic Flute, Hansel and Gretel, a kids' version of die Fledermaus, as well as Aladdin and the Magic Lamp.

Enjoy an eventful day out with your loved ones at Schönbrunn Zoo, home to 700 different species – some of which are endangered. Visit the orang-utans, giraffes, and rhinoceroses, experience a tropical thunderstorm in the rainforest house and watch the pandas which have already produced offspring several times. A sensation!

Hungry? Café-Atelier Nonja, the Imperial Pavilion, and the Tirolergarten are just some of the options.

And if you've had enough of running around, there's always a trip through the zoo's grounds aboard the Panoramabahn during the warmer seasons. A large circuit of the Schlosspark includes the Gloriette where fantastic views of the city await.

Tip: The Nature Experience Trail (incl. fire salamander climbing wall and spider's web climber for the younger children) and the treetop trail (a dizzying 160-meter long rope bridge 10 meters above ground).

And if you have the energy, you can climb the 343 steps to the Türmerstube (tower room) to enjoy unique views of Vienna and take a closer look at some of the cathedral's 230,000 roof tiles. If you are feeling particularly brave you can also take a tour of the catacombs – a spooky underground burial vault.
